

# Used Car Sale Agreement

A private car sale contract covering the vehicle's identity, odometer reading, outstanding finance, payment, and transfer of the registration into the buyer's name.

SAMPLE · finsafe.space

## 1. Parties

Identifies seller and buyer with ID details, confirming the seller is the registered owner or has legal authority to sell.

---

---

## 2. Vehicle identification

Records plate number, engine number, and chassis number exactly as they appear in the registration book, so the contract matches the physical car.

---

---

## 3. Odometer and condition

States the mileage at sale and lists known faults and accident history, with the buyer confirming inspection and any test drive.

---

---

## 4. Price and payment

Sets the full price, any deposit already received, and how and when the balance is paid, with each payment acknowledged in writing.

---

---

## 5. Outstanding finance

Declares whether the car secures any loan, and if so, how and when it will be paid off so the registration book is released for transfer.

---

---

## 6. Registration transfer

Assigns responsibility and a deadline for transferring the registration into the buyer's name, and splits the transfer fees between the parties.

---

---

## 7. Handover and risk

Fixes the moment the car, keys, and documents pass to the buyer, and confirms the buyer bears road risk from that point.

---

---

## 8. As-is sale

Confirms the buyer accepts the car in its inspected condition, without covering faults the seller deliberately concealed.

---

---

## 9. Fines and liabilities

Allocates responsibility for traffic fines, tax, and tolls incurred before versus after handover.
